For our South East Therapy Centre, based in Witham, Essex

Supporting children with a brain injury, genetic condition or developmental delay, this is an exciting opportunity to be involved in the development of the Charity's provision, bringing your skills and experience to our existing physiotherapy, occupational therapy and cognitive team. We offer a unique working environment where therapists spend quality time with children and their families so that they can develop programmes, tailor-made for each child, which the family undertakes at home.

For 26 years, Brainwave has been supporting children with disabilities. Brainwave's enquiries are growing at 40% year on year and the Charity is continually expanding its services to meet this need. We are looking for another Occupational Therapist, with an interest in sensory integration, to join our Band 7 Occupational Therapist and to strengthen our experienced team led by a Bobath trained Physiotherapist.
